

Call for Papers

WFEClear, The WFE's Clearing and Derivatives Conference 2024

March 19-21, 2024

Madrid, Spain

The World Federation of Exchanges is pleased to announce its 40th Annual Clearing and Derivatives Conference, **WFEClear**, which will be hosted by **SIX Group and Bolsa y Mercados Españoles (BME)** in Madrid, Spain, from **19th to 21st March 2024**.

We invite the submission of theoretical, empirical, and policy research papers on issues related to the conference topics below. Accepted papers will be presented at the conference and posted as part of the conference proceedings on the Financial Economic Network (SSRN).

Academic Keynote Speakers

Sir Dermot Turing, Visiting Fellow, Kellogg College, University of Oxford.

Dr. Carol Alexander, Professor of Finance, University of Sussex.

Aims and topics

The objective of the conference is to bring together academics, practitioners, and policymakers from around the world to share original research and to exchange ideas on the opportunities and challenges for the future of central and bilateral clearing. By bringing academia and industry together in a mutually enriching conversation, the conference aims to stimulate the generation of new ideas and approaches to these topics. The programme will comprise of keynote speeches, expert panels, and paper presentations. Accepted papers will be assigned an industry discussant.

Topics of interest include, but are not limited to:

- CCP resolution
- Clearing structures and incentives (e.g., auction design, corporate governance, client clearing, non-default losses (NDLs), impact of clearing regulations)
- Market resilience (e.g., clearing networks, liquidity contagion, cyber threats, collateral flows)
- New clearing models
- Risk models
- Operational risk (e.g., third party risk management, transitioning to the cloud)
- Impact of innovation and new technologies (e.g., clearing of crypto assets, crypto derivatives, DLT applications)

- Liquidity risk transmission (e.g., network models, procyclicality).
- The impacts and suitability of the clearing mandate
- Porting
- Cross-border issues
- Climate-related issues (green derivatives, clearing carbon emissions, water futures, carbon markets derivatives, etc.)

Paper submissions

Submissions should consist of a full paper sent in PDF format to callforpapers@world-exchanges.org, to be received no later than **Monday, 2nd October 2023**. Papers should be in English and include an abstract. Authors of accepted papers will be notified by 27th November 2023. Final versions of the selected papers are due by 12th February 2024.

Scientific Committee

Barbara Casu (Bayes Business School)
Jorge Cruz Lopez (University of Western Ontario)
Gerardo Ferrara (Bank of England)
Richard Haynes (CFTC)
Stanislav Ivanov (ICE)
Albert Menkveld (Vrije Universiteit Amsterdam)
David Murphy (London School of Economics)
